15. Regulatory information
16. Other information

1. Identification of the preparation and the Company/Undertaking

- Product names: cellular rubber
- Company: LABORATORIOS DIAFARM S.A.
Avda. Arraona, 119-123
08210 Barberà del Vallès (Barcelona)
SPAIN

2. Composition/Information on ingredients

- Chemical description: Cellular synthetic rubber with polymeric fabric.
- Hazardous ingredients: according to EC directive 88/379/EWG

CAS No.	134-13-2	< 3.5% Zinc oxide	N
EG-No.	215-222-5		R 50/30

3. Hazards identification

R 52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

4. First-aid measures

Skin contact: None
Eye contact: None
Ingestion: laxative, call for medical advice.
Inhalation: not applicable, no vapours at ambient temperatures

5. Fire-fighting measures

Suitable extinguishing media: water, CO₂, foam, dry powder, sand

Use respiratory protection

Protection against fire: keep away from flames and sparks

6. Accidental release measures

Personal precautions: For personal protection see Section 8.

Environmental precautions: Avoid discharge into the environment.

Clean up methods: collect mechanically, dispose in accordance with local regulations.

7. Handling and storage

Handling: Good industrial practice in housekeeping and personal hygiene should be followed.

Storage requirements: store in a dry and cool place.

8. Exposure control and personal protection

Ingredients with threshold limits: None

Personal protection: **Respiratory protection:** not required at normal temperatures

Hand protection: not required

Eye protection: not required

9. Physical and chemical properties

Physical state and colour:	solid, black
Odour:	characteristic
pH value:	not applicable
Boiling point:	not applicable
Flash point:	not applicable
Flammability:	not determined
Auto ignition temperature:	not determined
Explosive properties:	not relevant
Explosion limits:	not determined
Vapour pressure:	Negligible at room temperatures
Density at 20°C:	not determined
Solubility in water:	insoluble

10. Stability and reactivity

Stability: Stable under recommended storage and handling conditions (see Section 7).

Conditions to avoid: none.

Thermal decomposition products: carbon oxides (CO_x)
nitrous gases (NO_x)

sulfur oxides (SO_x)

11. Toxicological information

Acute toxicity: no information available

Eye irritation: non-irritating

Skin irritation: non-irritating

Ingestion: may cause discomfort

Sensitization: does not cause sensitisation

12. Ecological information

No experimental ecological data are available on the preparation as such.

13. Disposal considerations

- Waste and used packing should be treated according to local regulations.
- Avoid discharge into the environment

14. Transportation information

Following our present state of knowledge, there are no restrictions.

15. Regulatory information

Labelling according to EC directives:

R52/53 Harmful to aquatic organisms may cause long-term adverse effects in the aquatic environment.

16. Other information

In section 2 mentioned risk phases

R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Information included in this document is given in good faith and constitutes our present state of knowledge relevant to safety regulations. However, we do not accept responsibility for injury or damage, where products supplied by our services are used in applications other than those specified.

End of safety data sheet
